

The Pacific and Asian Affairs Council presents

Global Vision Summit 2013:

EcoTipping Points

Saturday, February 2, 2013
9:00 am — 4:30 pm

Hawaii Tokai International College
2241 Kapiolani Boulevard

How do you reverse downward cycles and gain momentum in positive directions? How can you make an impact on issues you care about?

At this conference, students will examine real-world case studies to learn how people have created positive change in their communities. They will collaborate with students from across the state to apply these concepts and come up with their own ideas to set restoration and sustainability in motion. Participants will also meet professionals who work with the concept of tipping points.

Registration Deadline is January 28, 2013.

To register, submit registration form and event waiver.

Forms and further information can be found at www.paachawaii.org
